Dec. 3, 1987

Dear Alex and Glennis:

Just a note to go along with our Christmas greeting. I'm getting at my cards a bit earlier than is usual for me, but it is almost hard to "think" Christmas tonight - it is so mild. After a stormy mid-November with three heavy storms that cut electricity lines and caused some dreadful accidents - we are now experiencing mild and balmy days. - but I expect it won't last.

We see Mary and Ross occasionally as they come this way fairly frequently. Ross is on the Conference planning committee and Mary does her bit on the Conference U.C.W. Executive. Though we missed most of their fall visits as Don and I were away

for a good six weeks. We flew out to the Queen Charlotte Islands to spend some time with Jean - she is presently at Masset at the Haida clinic. She is having a most interesting time and we met a lot of the Haida Indians. They are charming, intelligent and interesting people, extremely gifted artistically - quite different people than our MicMac. We saw a lot of both Graham Island & Outh Moresby - and then decided to see some of Canada's northwest. Took the ferry to Prince Rupert, then the America ferry to Skagway and in a rent-a-truck proceed up the mountains for Skagway. Camped at various places and slept in the back of the truck. Had a great trip - travelled the Alaska Highway to Fairbanks - up the Klondike to Dawson City, camped on the bank of the Yukon River. Dawson City is at once depressing and interesting, but the govt. is restoring it à la Lunenburg, so eventually it will be nothing but a tourist trap. Then a few miles up the Dempster when snow & ice threatened us back - back to Whitehorse and then vice Skagway. Cassiar route back to Prince Rupert

9

and then back to the Chancellor. A party then  
and then in to Victoria and a week with  
Ruth and George - and we had all the  
family. It was a great party. make us  
feeling that you had that country I am in.

At the moment we're really around all  
the big time. There is in Toronto day in  
the finished state in  
an administration <sup>to</sup> know. At the  
one of the big <sup>to</sup> know. At the  
that he does not like contact. At the  
moment he has a part time job. At the  
with a former <sup>to</sup> know. At the  
find that more interesting and up in ally.  
which he does when he finishes is anybody?

Queen. Moore and I are fine - and then we  
Laurie back directly in every day.  
been on a farm in drive  
N.B. - since the first of June. day  
well and only 5. He has had an opportunity  
has to do a great many more things. has been  
has to do a great many more things. has been  
question and representation and about the  
measures up. We are expecting him from June 1  
Chancellor.

We haven't been to Sealax for over a  
year so it is a long time since I have  
seen Aunt Eva. Dan is no longer in the  
Pine Hill Board, and with Mary and  
Russ in Cape Breton, the incentive to go  
has been removed. However if and  
when they retire, and I understand  
it will not be in the too distant future -  
and if they go back to the Sealax  
area which I expect might be likely -  
we will have more reason to go <sup>in that</sup>  
direction. The last time we were  
there she was away. She is amazing -  
and I hope she keeps that way -  
She is really fortunate with good health.

M,  
-

Anyway - that's the way it is, and for a small consequence is big bill & expense to repair the damage.

Not much else to report. Hope all is well with you and yours and our wishes go to you both for a Happy Christmas and a bright New Year.

With love,

Margaret.

P.S.

Sometime ago I mailed off to you a copy of an old picture Dad had, of himself and his brother, taken at the time of John's (?) funeral. It was copied for me by a friend here in Buckville, who has since died, so there won't be another - but I wondered if it ever arrived. I sincerely hope so.

m.
