

159 Mc Bain Rd  
RR # 2, Scotsburn  
N.S. BOKIRO  
Sept 20/99

Dear Alex and Glennis:

Just a note tonight. If I don't drop  
you a note tonight it's problematic when  
a letter will go off to you.

Yours came on Saturday.

I thought Dad had some information  
re the Annand connection, so looked  
it up. Herewith attached.

Apparently "Auld Brochie" had  
a sister Jean (I don't know her dates  
or the order in which she belongs  
in the family), who married a Wm.  
Annand from Banffshire. They  
emigrated to N.S. The family believed  
she was the mother of Premier Annand.

Dad also notes the article he  
read by Senator Power (whichever  
he was) which mentions the  
Russell girl as Annand's second  
wife. How one would track down  
the article I don't know. Unfortunately,  
he doesn't name the article or  
give a source — my first bet  
would be a paper prepared for and

presented to the N.S. Historical Society -  
& it may be in their collection.

Perhaps the Russell girl had a  
connecti to the family in Scotland  
you mention. (I know noty abut  
that connecti). There seem to be  
so many connecti between  
Hawaii and Scotland over the  
generations, it would not surprise  
me at all.

There was also a <sup>Farguhar</sup> connecti  
with a Mitchell family in Scotland  
but again, I don't know where  
or when or how.

I don't expect to be looking  
such up for a while.

I think Mary will have  
told you, but in August it  
was detected that I have the  
same vitilic disease problem  
of Jan and Mary. My doctor  
feels sure that we all had  
rheumatic fever (which causes  
this problem). I remember we  
were all sick at one point.  
Jan was 7, Mary was 16 and I  
was 19. I was the richest and

They called me off to the Inflelens Disease Hospital in Perth St when I was for a month. It boggles the mind to think I have gone this long and nobody detected it - but then my pulse seems to revert back to normal in spite of the problem. I've had the usual tests and am on medication and am slated to see a cardiologist in Halifax.

We'll take it from there.

I guess when one reaches "three score" things are inclined to fall apart as you well know.

Have a good trip and visit with your family. Sept. is a much better month to visit Upper & Lower Canada than the summer. I hope you have pleasant weather.

All for now -

As always

Margaret.

The first part of the report  
 deals with the general  
 situation of the country  
 and the progress of the  
 work done during the  
 year. It also mentions  
 the various projects  
 which are being carried  
 out at present.

The second part of the  
 report deals with the  
 financial position of the  
 organization. It shows  
 that the income for the  
 year has been sufficient  
 to meet the expenses  
 and to leave a surplus  
 of £1000. This surplus  
 will be used for the  
 purchase of new  
 equipment and for the  
 improvement of the  
 premises.

The third part of the  
 report deals with the  
 personnel of the  
 organization. It shows  
 that the staff has  
 increased during the  
 year and that the  
 work has been carried  
 out in a satisfactory  
 manner.
